

# SYED UMAIR AHMED

## COMPUTER SCIENCE ENGINEERING STUDENT

Computer Science Engineering student with skills in web development and programming. Passionate about building user-friendly applications and solving real-world problems. Eager to contribute to real-world projects through a software development internship while continuously learning and improving.

[linkedin.com/in/syedumair05](https://linkedin.com/in/syedumair05)

Hyderabad, Telangana, India

### EDUCATION

#### B.E. Computer Science Engg.

Lords Inst. of Engg. & Tech  
2024 - 2028

#### Intermediate (MPC)

Shaheen Junior College  
2022 - 2024

#### SSC (Class X)

St. Aristotle School  
2022

### TECHNICAL SKILLS

#### Languages:

Java, Python, C (Basic)

#### Web Technologies:

HTML, CSS, JavaScript, React.js

#### Tools & Platforms:

Git, GitHub, VS Code

#### Concepts:

OOP, Data Structures, Algorithms, DBMS, AI/ML Basics

### CERTIFICATIONS

- NPTEL - Java Programming
- JP Morgan - Software Engg Job Sim
- Oracle Cloud AI Foundations 2025
- C Beginner - Great Learning
- Data Structures - Great Learning
- Ethical Gen AI - Simplilearn
- Fundamentals of SQL - Simplilearn
- Machine Learning - Simplilearn
- QuizOff 2026 AI Quiz - CampusCrew
- AI Tool Workshop - Be10x

### LANGUAGES

English • Hindi • Telugu

### EXPERIENCE & INTERNSHIPS

#### Backend AI Engineering Intern

Jul 2026 - Present | Remote

##### FlyRank AI (Chicago, IL, USA)

Currently interning at FlyRank AI as an AI intern, focusing on Backend AI Engineering, intelligent model APIs, and machine learning infrastructure.

#### Frontend Developer Intern

Aug 2026 - Present | 6 Months

##### Alfido Tech (Candidate ID: BS/REG/125802)

Engaged in hands-on task-based learning model, building real-world web applications, component architecture, and responsive user interfaces.

### PROJECTS

#### AI Accident Detection Dashboard

[github.com/Syedumair05/AI-Accident-Detection](https://github.com/Syedumair05/AI-Accident-Detection)

Developed an AI-powered dashboard to detect road accidents and provide real-time alerts using computer vision techniques.

- Utilized AI models and video feeds to identify accidents and trigger alerts.
- Built an interactive dashboard to visualize incident data.

#### AgriMitra - AI Crop Market Intelligence

[github.com/Syedumair05/AgriMitra-](https://github.com/Syedumair05/AgriMitra-)

An intelligent agricultural market advisor helping farmers maximize crop profits through mandi price analysis and price predictions.

- Real-time mandi prices, smart price prediction & profit calculator.
- Multilingual & voice support with weather & maps integration.

#### Job Shield

[github.com/Syedumair05/Job-Shield](https://github.com/Syedumair05/Job-Shield)

Built a platform focused on job-related safety and security features, user authentication, and secure data handling.

- Implemented user authentication and secure data handling.

#### Virtual Lab Experience

[github.com/Syedumair05/virtual-lab-experience](https://github.com/Syedumair05/virtual-lab-experience)

Created a virtual lab platform to simulate practical science experiments for students in a digital environment.

- Simulated experiments with real-time interaction.

### RELEVANT COURSEWORK & ACHIEVEMENTS

- Data Structures • Object-Oriented Programming • DBMS • Operating Systems • Computer Networks • Artificial Intelligence
- Completed 10+ industry-recognized certifications in programming, AI, cloud, and databases.
- Actively participated in coding challenges and technical events.
- Built and deployed multiple real-world projects using modern web technologies.

"Eager to learn, build and contribute to impactful projects."
